

PREFACE

Alinel creates solutions with a special added value: consistent design that retains functionality. We call it 'Accent architecture'.

The modular aluminium cladding adds rhythm and personality to the facade. The stylish features fit seamlessly into a sleek aesthetic.

Be inspired towards architectural masterwork. Combine sections and features to your heart's content. Add a new dimension to facade cladding!

A handwritten signature in black ink, appearing to read "Jan De Paepe".

“THE DETAILS ARE
NOT THE DETAILS.
THEY MAKE
THE DESIGN.”

Charles Eames

TRUE PIONEERING

“ Alinel was born from an unstoppable creative drive and a passion for aesthetics. I did not just want to offer building materials, I wanted to offer a visual rhythm for tasteful composition. ”

Jan De Paepe is the inspirer and director of Alinel. In 2012, Alinel developed and patented a unique system: The start of a revolution in facade cladding.

Architects, construction professionals and building owners can make their dreams come true today, thanks to this accent architecture. Tasteful, sleek and timeless.

VERSATILITY WITHOUT LIMITS

Clever mounting systems make the aluminium cladding suitable for any facade width due to the design's unique tolerance within the joints.

THE ARCHITECTURAL SOLUTION

© Home Sweet Home - Nick Connoerts | Alinel Type A | Lanaken | Architect: Andy Gijbels | NANO architects | Installer: Steegmans Construct

PREMIUM BRAND FOR THE ARCHITECT DREAMER

You don't like technical limitations that limit your creativity and style sense. We understand that better than anyone. Alinel hands you the building blocks for your creative dreams.

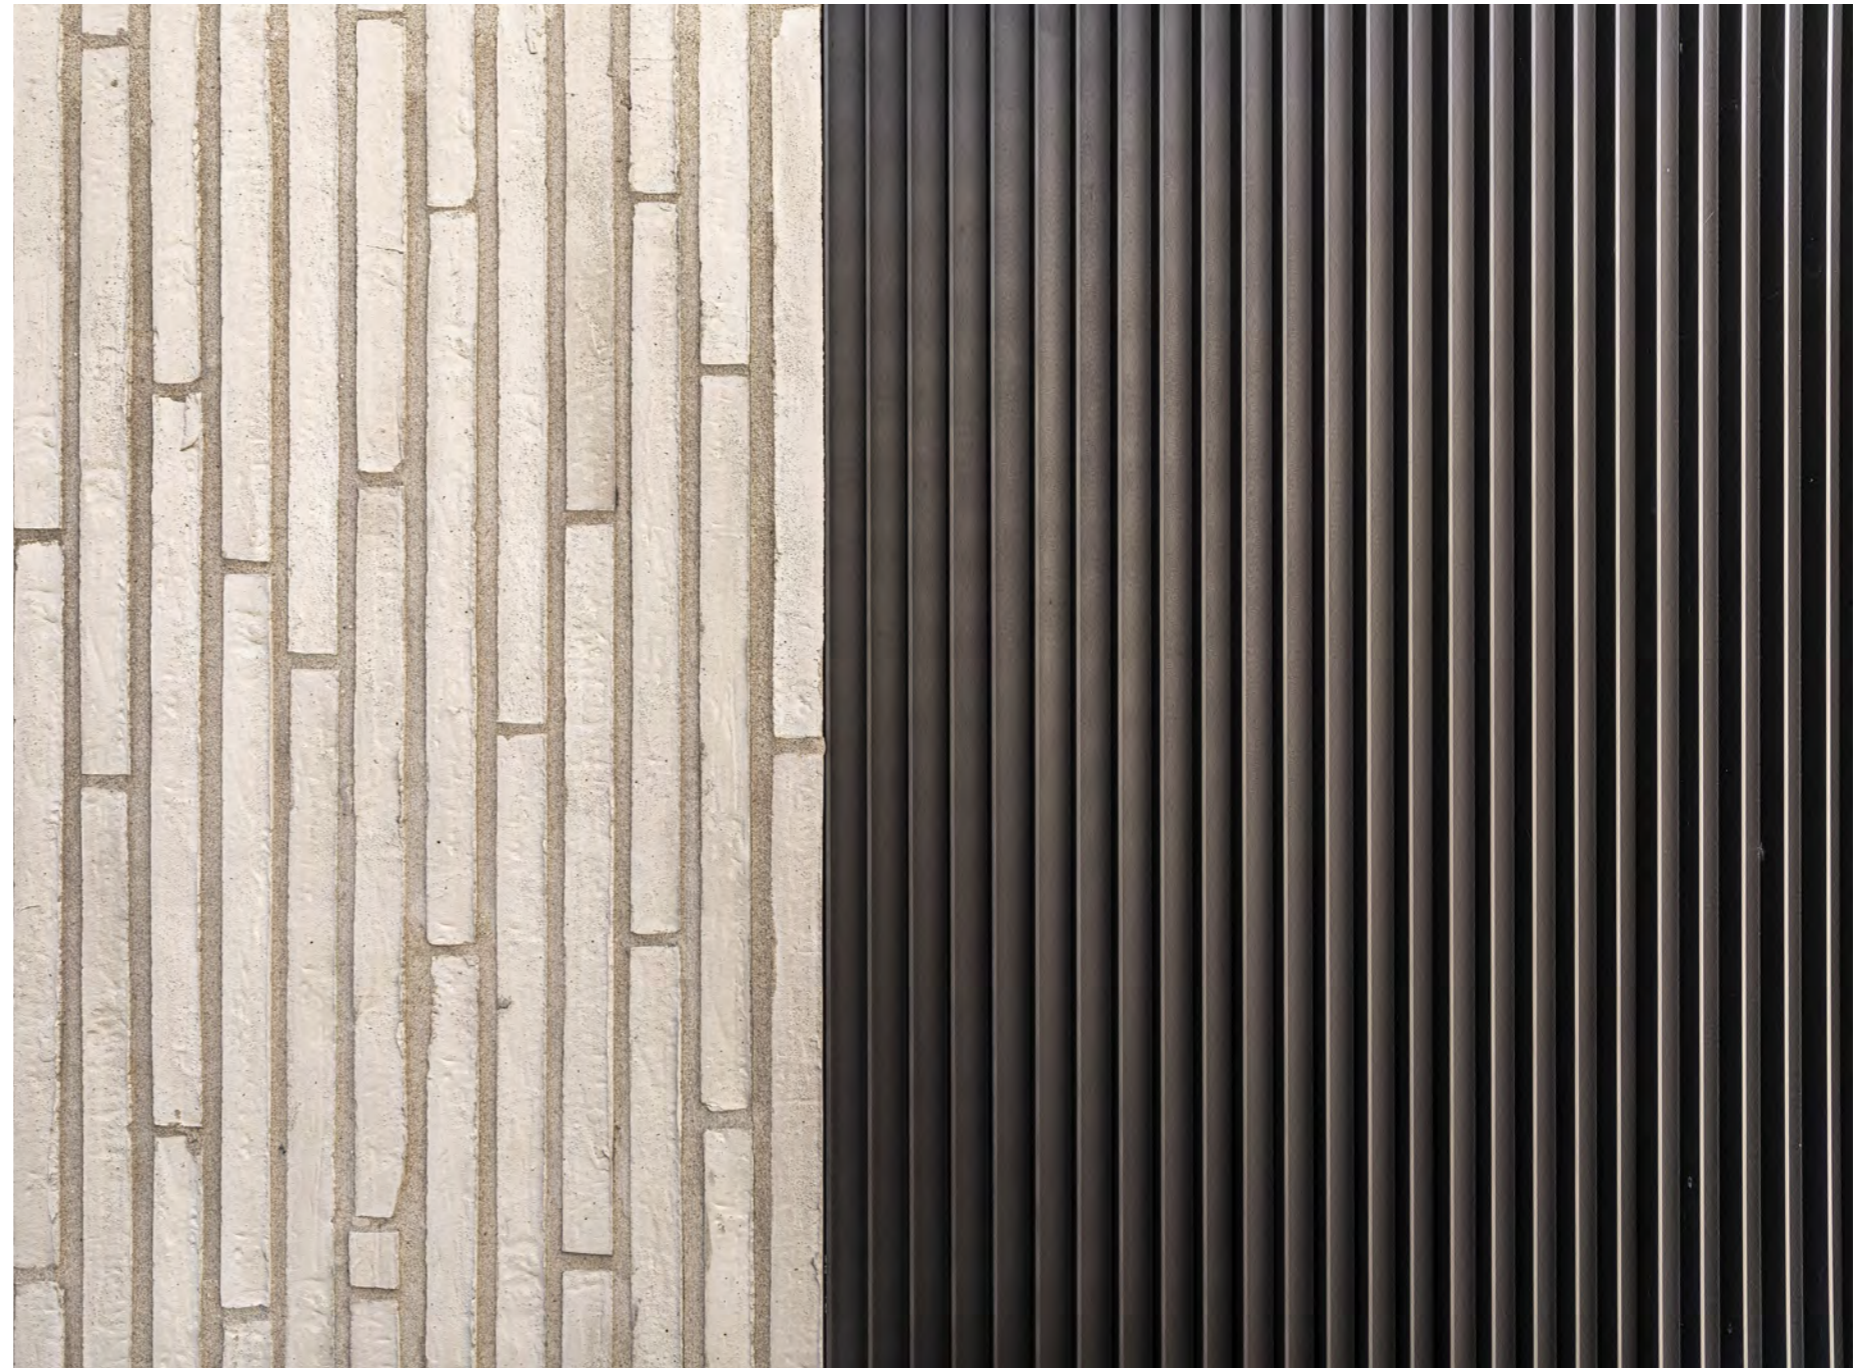

Ditch the standard options. Divert from the well-worn paths. Think big!
A custom texture for a new series is needed?
Or a surprising substrate on a large area?
We love innovative challenges. Like you do.

THE EASIEST & FASTEST INSTALLATION AROUND

Keep it simple! These three words form the basis of all product development by Alinel.

Our system is 100% user-friendly, anytime, anywhere.

What about the installation, you say? Piece of cake!

© Home Sweet Home - Nick Connoarts | Alinel Type A | Tessenderlo | Architect: Andy Cijbels | NANO architects

STANDARDIZED CUSTOMIZATION

Thanks to our standardized customization, various aluminum profiles can be combined according to suit personal preferences allowing for limitless possibilities to incorporate accents.

1. We calculate which profiles you need
2. You receive an assembly plan tailored material
3. You assemble the Alinel cladding in no time at all

THE FINISHING TOUCH

A building is so much more than just a building. It is a home: a place tailored to the people who reside and live there.

With Alinel, you can create your own building features.

- A garage door in the facade?
- Your letterbox, door and carport harmoniously matched?
- An interior wall as an eye-catcher?
- Let your imagination run wild.

INVISIBLE INNOVATION

Windows, doors and garage doors
seamlessly blend into the facade.
The secret?
The invisible attachment of our smart
tongue-and-groove connection and
tilt-hook connection.

The result?
Unity and uniqueness.

PERFECT INTEGRATION OF OUR ACCESSORIES

An eye for detail. That is what makes you the architect, construction professional or building owner you are. And it makes Alinel the outstanding designer it is.

A letterbox, charging station, socket, water faucet, the intercom, ... each accessory receives the familiar aesthetic and functional qualities.

INFINITELY RECYCLABLE

Circular construction means choosing quality materials and giving nature the respect it deserves. Aluminum is light, strong and endlessly recyclable: a responsible and sustainable choice.

Furthermore, the products of Alinel, a company rooted in Belgium, are wholly manufactured locally.

“IT IS UP
TO THE ARCHITECT
TO CREATE
TOMORROW’S
YESTERDAY.”

The infinitely adaptable aluminum cladding offers endless perspectives and opportunities!

From surface texture to color and finish, Alinel easily adjusts. The sections slide together effortlessly, even in challenging corners.

Effortlessly design architectural facades using our resilient, colourfast cladding. Built for durability and low maintenance, it seamlessly combines enduring allure with robustness. The fusion of beauty and strength defines every surface of the facades.
