

# PREFACE

As an "accent" architect, Alinel creates solutions with a special added value: consistent design that retains functionality.

The modular aluminium cladding adds rhythm and personality to the facade.

The stylish features fit seamlessly into a sleek aesthetic.

Be inspired towards architectural masterwork. Combine sections and features to your heart's content. Add a new dimension to facade cladding!

Jan De Paepe  
CEO Alinel

“THE DETAILS ARE  
NOT THE DETAILS.  
THEY MAKE  
THE DESIGN.”

Charles Eames

# TRUE PIONEERING

“ Alinel was born from an unstoppable creative drive and a passion for aesthetics. I did not just want to offer building materials, I wanted to offer a visual rhythm for tasteful composition. ”

Jan De Paepe is the inspirer and director of Alinel. In 2012, Alinel developed and patented a unique system: The start of a revolution in facade cladding.

Architects, construction professionals and building owners can make their dreams come true today, thanks to this feature architecture. Tasteful, sleek and timeless.

# VERSATILITY WITHOUT LIMITS

Clever tongue-and-groove joints  
make the aluminum corrugated sections  
suitable for any facade width.

# THE ARCHITECTURAL SOLUTION

### THE A-BRAND FOR THE ARCHITECT DREAMER

You don't like technical limitations that limit your creativity and style sense. We understand that better than anyone. Alinel hands you the building blocks for your creative dreams.

Ditch the standard options. Divert from the well-worn paths. Think big!

A custom texture for a new series is needed?

Or a surprising substrate on a large area?

We love innovative challenges. Like you do.

### **THE EASIEST & FASTEST INSTALLATION AROUND**

Keep it simple! These three words form the basis of all product development by Alinel.

Our system is 100% user-friendly, anytime, anywhere.

What about the installation, you say? Piece of cake!

#### **100% CUSTOM-MADE**

1. You calculate what corrugated sections you need with our handy software application.
2. You receive the materials fully customized.
3. You install the patented ALINEL system super fast, without any preparation.

INVISIBLE INTEGRATION  
OF WINDOWS,  
GATES, DOORS,  
ACCESSORIES, ...

“THE FUTURE BELONGS  
TO THOSE WHO BELIEVE  
IN THE BEAUTY  
OF THEIR DREAMS.”

Eleanor Roosevelt

## THE FINISHING TOUCH

Alinel Type B Wood | Render

A building is so much more than just a building. It is a home: a place tailored to the people who reside and live there.

With Alinel, you can create your own building features. A garage door in the facade?

Your letterbox, door and carport harmoniously matched? An interior wall as an eye-catcher? Let your imagination run wild.

# INVISIBLE INNOVATION

Windows, doors and garage doors seamlessly blend into the facade. The secret? The invisible attachment of our smart tongue-and-groove connection.

The result?  
Unity and uniqueness.

### PERFECT INTEGRATION OF OUR ACCESSORIES

An eye for detail. That is what makes you the architect, construction professional or building owner you are. And it makes Alinel the outstanding designer it is. A letterbox, socket, water faucet, the intercom, LED lighting, ... each accessory receives the familiar aesthetic and functional qualities.

Cornelis-Verhoeven

“AN EYE FOR DETAIL  
MEANS SEEING  
WHAT IS UNIQUE.”

# INFINITELY RECYCLABLE

Circular construction means choosing quality materials and giving nature the respect it deserves. Aluminum is light, strong and endlessly recyclable: a responsible and sustainable choice.

As a Belgian company, Alinel prides itself on the 100% local production of its premium products.

The 100% customizable aluminum cladding creates endless perspectives... and possibilities!

Surface texture, colour, finish... Alinel adapts.  
The sections slide together effortlessly, even in the most difficult corners.

**Alinel in a nutshell:**

- ★ Colourfast and scratch resistant
- ★ Durable and maintenance-free
- ★ Burglary-resistant and robust
